Subject: Accès à un environnement bac à sable (sandbox)
Importance: Normal
Sensitivity: Normal
Attachments: sap-transaction-codes-list.pdf

Bonjour Jean-François,

Finalement voici ma demande d'accès à un environnement bac à sable (ou sandbox) pour fins de démonstrations à nos collègues qui participent au positionnement PGI.

Je ne sais pas si l'information est suffisante. Principalement il s'agit des transactions
SE11 - dictionnary definitions
SE16 - Data browser
SD11 - Data Model
SE80 - ABAP Development Workbench
SU03 - Consultation des profils d'autorisation (pour le modèle de sécurité)
Et autres transactions business des modules MM plus spécifiquement.

Pour ton information: J'ai joint un feuillet listant des transactions que toute personne technique "aime" utiliser ;-))

Merci beaucoup,

Louise Savoie
